Biotech Resources Group, LLC provides strategic staffing services for clients in Clinical Research, Regulatory Affairs, and Biologics Manufacturing

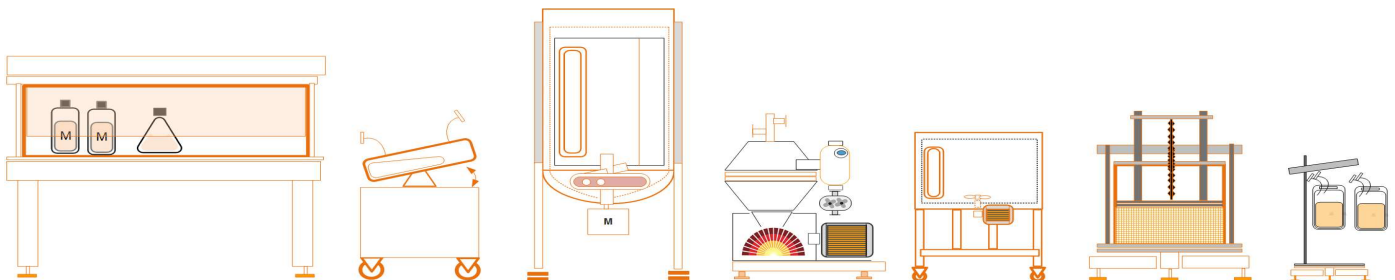

The biotechnology economy is gaining strength again with global drivers fueling long-term growth for CRO, CMO, Innovator, and biosimilar companies. Given this recent upside, biotechnology companies are creating strategic imperatives to increase competitiveness. Specifically, each is creating a sustainable competitive advantage structured around Human Capital.

Providing staffing services for over 13 years, Biotech Resources Group (**BRG**) knows first hand that keeping pace with trials, audits, and clinical/commercial drug supply is a challenge and requires a focus on top-tier hires.

**KEY GMP HIRES**

VP Manufacturing Site Lead Dir/Mgr. Manufacturing Automation / Controls	Mfg Supervisor Start-up Specialists Design-Build Specialists Engineering / Facilities	Mfg Data Specialists Warehouse / Shipping S&OP Planning CMO / Insourcing	Quality Assurance QC Microbiology QC Chemistry

Woman-Founded and Operated in 2000, Biotech Resources Group (BRG) is not your typical Maryland-based staffing firm. Uniquely complementing their mature GXP networks, BRG staff has direct **hands-on** experience and expertise in:

- Human Resources / Strategic Hiring
- Large-Scale Biologics Manufacturing
- International cGMP Consulting
- Business Start-ups
- Community Citizenship
- Nonprofit Leadership

For these reasons, companies seeking to create high-talent teams have come to rely on our collective expertise, network, and horsepower to hit strategic hiring plan and project targets.

Sue is Founder and President of BioTech Resources Group, LLC, a staffing & GMP Consultant company serving clients in the Clinical, Regulatory, and Commercial area's of biotech. These clients are comprised of biotech, pharma and CRO companies throughout the US and east Asia. Sue's responsibilities include full life-cycle recruiting, strategic business development & account management. Her goal is simple: finding the right talent for the right job. BioTech Resources Group (BRG) was established in Q4/2000. Sue has a Bachelor's in Business Administration (Human Resource Management focus) from Southern New Hampshire University. She was the Business Manager at two staffing firms in NH before starting her own business. Sue lives in Gaithersburg, MD with her husband Bob and enjoys swimming, her family, pets, and reading.
